| Other Information: | There is an Elizabeth Williams c.1838, buried Dec 1882, in the same grave as above, which suggests she is a daughter although she has not been found on the census to date. The 1881 census also lists two other Elizabeth Williams, residing with Elizabeth, aged 18 and 16 respectively. Both are listed as daughters and both born in Ellesmere. This is most probably an enumerator error and should have been listed as granddaughters |
